For many, the 1945-46 winter was a time of hardship. I took a job at the University of Chicago, but my salary was not enough to cover my expenses. I had to live on my savings and the help of my friends. I was very grateful to have a place to live and food to eat. I was also very lucky to have a job that gave me a chance to learn and grow. I was very happy to be part of the University of Chicago community and to have the opportunity to work with some of the best minds in the world.
